## Voyager Aircraft

PRESSURE  
AP 00262

---

---

### PRODUCT

140 PC AND 240 PC

### APPLICATION

PC's monitor oil, coolant, and fuel pressure. They also verify air speed and altitude on the around the world non-stop, non-refueled flight. This is not exactly a high volume user, but it is an interesting application and does point out the use of PC's in aircraft, and the high reliability of our product.
