

BME280 Shuttle Board

Bosch Sensortec

BOSCH
Invented for life

Description

The Bosch Sensortec BME280 shuttle-board is a PCB with a BME280 pressure and humidity sensor mounted on it. It allows easy access to the sensors pins via a simple socket. As all Bosch Sensortec sensor shuttle boards have identical footprint, they can be plugged into Bosch Sensortec's advanced development tools (e.g. the Development Board). Of course, the BME280 shuttle board can also be used for customer's own implementations.

Note: Product photo may differ from real product's appearance
