

HVAC

Air conditioning systems

Segment solutions

Stay cool with WECO products

The control of all types of supply, recirculation and exhaust air as well as air temperature changes start with an absolutely reliable and maintenance-free system module. This takes over the responsibility of the network connection and any kind of signal transmission and is therefore the heart of a system. There must be no compromises here - no matter what weather, temperature, environmental influences or mechanical forces affect it. You get this assurance with WECO products - quality in every segment for long maintenance-free use.

With over 100 years of experience in the world of connectors, WECO is the supplier for most reliable and superior components, which are characterized by highest quality and longest durability.

We are your worldwide partner for standard products and also for customer specific solutions in various applications.

KEY FEATURES

Designed for the most adverse conditions: UV-resistant, corrosion- and ageing-resistant, insulation-optimised, safe even in severe environmental conditions

Vibration-resistant connection solutions

Protection against mismatching components with Poka-Yoke solutions

High-quality materials guarantee a long service life without the need of maintenance

Easy and safe connection technology

Zero-failure-principle: Only flawless products are shipped to our customers. Ready for Plug & Play.

Looking for the right product? We can help you with our over 100 years of experience and can come up with a tailored-made solution especially for you!

ADAPTABILITY. RELIABILITY. PERFORMANCE.

Our Key Performance Indicators

Proud of our operational excellence and solid performance, we have set KPI's to represent what our customers value the most.

Zero-Failure-Principle
Plug & Play

Quality
High Quality products

Compliance
with international standards

Response
Quick replies, answers, solutions, quotes, ...

Agility
Agility in production

Delivery
On Time Delivery

TCO
Live Total Cost of Ownership

Quality is not expensive

Ensure quality in your finished product and avoid unexpected follow-up costs due to defective basic components or components that need to be checked in general. A satisfied customer is the best recommendation.

Our products meet the standards and have all the necessary approvals. Global use is thus ensured and the warranty of your product is reliably met with WECO.

Significantly reduce your production costs with our products. Our connection solutions are ideally matched to your manufacturing process. Avoid unexpected follow-up costs by highest quality and longest MTBF time.

Our product variety offers the optimal solution for every production process and application.
