

Global semiconductor supplier offering Analog signal chain, power, and embedded processor integrated circuits

Who we are

2012 Founded
750+ Employees
5700+ Customers
23 Global Offices

1600+ Products
2.6B+ IC units shipped 2022
\$250M Annual Revenue in 2022

Why Customers Choose Us

Quality

- Products in accordance with ISO9001 standards & capable of AEC-Q100 Automotive grade qualifications.
- Quality Management System includes PCNs, Failure Analysis, reliability tests, & product life/storage guides.
- Consistently low & competitive ppm rates across entire product portfolio.

Supply & Delivery

- Multiple wafer fabs located in all major global regions manufacture our integrated circuits.
- 3PEAK utilizes top tier fabs with abundant capacity for our products now & in the future.
- 95% of products have below industry average Lead Times.

Support

- Dedicated sales, FAE, & customer support in the Americas & Asia for ordering, technical, & product help.
- Responsive online support available to customers in all regions.
- Product & Quality teams available for any device specific needs & questions.

Cost Savings

- Broad Analog portfolio with thousands of p2p & technically similar xRef products to mainline suppliers.
- Some of the most competitive 1ku pricing in the semiconductor market.
- Interactive tools available to buyers & engineers to quickly find 3PEAK products & alternates.

3PEAK Americas Distributors & Sales Partners

Sales Support

- US based regional sales & FAE support teams for the Americas
- Sales Representatives in all major US regions

Product Portfolio Details

- Amplifiers & Linear: Operational & Special Amplifiers, Comparators.
- Isolation: Digital Isolation, ISO-RS485, ISO-CAN, ISO-I2C, Isolated Amplifier, ISO-Modulator.
- Interface: CAN, LIN, MLVDS, I2C, RS232, RS485.
- Data Converter: ADC, DAC, AFE, Temperature Sensor.
- Linear Power: LDO, Voltage Ref, Load Switch, Hot-Swap.
- DCDC Power: Buck / Boost, Isolated Power, POE.
- Battery Management: Charger, Protector, Gauge, BMS AFE.
- Supervisors: uP Supervisor, Sequencer, System Monitor.
- Drivers: Gate Drivers, Motor Drivers.

Test & Measurement

Example Focus Applications

- Smart Home Automation & Appliances
- Building Safety Systems
- Intelligent Light Control
- Motor Drives & Garden/Power Tools
- Solar Inverters
- Enterprise & Servers
- Point of Sale
- Set Top Box
- Grid Infrastructure
- Blood Pressure Monitor
