

Enter to win one of 5 Amazon Echo Dots to be given away at the show!

Alexa, what is MRAM?

"MRAM is magnetoresistive memory combining performance, persistence, durability & 20-year data retention."

Giveaway Rules:

1. Five Amazon Echo Dots will be given away at Embedded World 2018 to qualified customers
2. To qualify, customers must either:
 - Schedule an Embedded World meeting with Everspin sales before February 23, 2018 and then attend a qualified meeting at the Everspin booth (each meeting attendee is individually eligible)
 - Bring a certified MRAM design to the Everspin booth (one contest entry per design)
3. Winners will be chosen at random from all of the entries at the end of the show
4. Winners need not be present at the drawing.
